DETAILED ACTION

This action is in response to the applicant's response filed on 10/3/02

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kawai in combination with Motoki et al.

Kawai teaches forming laser or FET device by the following process steps; providing sapphire substrate; forming nitride based semiconductor layer structure "52-59" including InGaN layer, forming metal layer "60" as protection layer; after forming metal electrode layer, removing the sapphire by using mixture of phosphoric acid and sulphuric acid at a temperature as high as 450 C to remove sapphire substrate (see abstract, fig 14, col. 12, lines 45-67 and col. 13-col. 14, claim 1). Kawai does not teach removing the entire substrate.

Motoki et al teaches a choice of removing either partially or fully removing the hetero-substrate to form laser structure (see fig 1A- fig2 and related description. It would have been with

in the choice of one of ordinary skill in the art to remove either full or partial substrate in view of the art recognized teaching of Motoki et al for forming laser GaN based laser device.

Applicant's arguments with respect to claims 10-20 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
